Mr. Jennings:

I want to express my appreciation to you and your staff for the excellent service I receive whenever I contact the Secretary of State. I often call and am assisted by Sandra Nugent, Harvey Tsuboi, Laurie Thibault and Paul Roberts. They are true assets to your office and make it very easy to obtain the information I need.

Thank you.

Sincerely,

Robert Manikowski

Mr. James Fong
License and Revenue Branch
1740 N. Market Blvd.
Sacramento, CA 95834

Subject: Letter of Appreciation for Mr. Paul Roberts

Dear Mr. Fong,

This letter is written to draw attention to one of your staff and in recognition of the excellent contributions of Paul Roberts, who has presented the License and Revenue Branch with a positive image.

On December 12, 2011 I was contacted by the Contra Costa County District Attorneys office regarding a trapping case I had filed. The deputy DA needed a Department certified letter stating that a trapping license had not been issued to the suspect. I contacted Mr. Roberts who was able to provide me with the required document within hours. This excellent level of service continued when additional information was needed about the trapper's boss. The timeliness of service was outstanding, especially since the DA needed the paperwork prior to his holiday vacation.

I have been a warden for 22 years and this has been one of the best experiences I have had with an employee from another division. His dedication and willingness to assist the Law Enforcement Division in a criminal case is greatly appreciated. We're certainly lucky to have someone with Mr. Roberts's talent and dedication as part of our organization. Congratulations on his excellent performance and thank you.

Regards,

Nicole Kozicki

Nov. 21, 1994

PAUL Dale Roberts:

On behalf of the Governor's Office of Emergency Services, I would like to offer my thanks and appreciation to you for responding to our call for volunteers.

The scope of the Northridge earthquake presented us with some unique challenges. Communities throughout the southern region simultaneously experienced significant damage, even though many were several miles away from the epicenter. The challenge to the emergency management community was to provide disaster relief and assistance immediately. I believe your volunteer effort helped us to meet this challenge successfully.

From agency-to-agency and jurisdiction-to-jurisdiction, the assistance began immediately and continues to this day. I know many of you were personally affected by the quake. I appreciate the sacrifice made by your families as well as your agencies during this assignment.

The spirit of your volunteerism makes me proud to be a fellow state employee. Your support and commitment to assist others in a time of need will always be associated with the real success of this unfortunate event.

My personal best wishes and, again, thank you.

1. It is with great pleasure that I congratulate you for attaining the 200 mile award in the Run for Your Life Program. The fact that you have attained this award reflects highly on your excellent physical condition.
2. Since military regulations concerning physical standards place the responsibility for maintaining physical fitness solely on the individual, I feel that your personal, voluntary efforts in attaining this goal indicate that you have met your responsibilities to the fullest.
3. Your achievements in the Run for Your Life Program are commendable and will serve as a standing example for other 501st MI Group personnel who will enter the program after you.
4. A copy of this correspondence will be placed in your official 201 file.

May 6, 1994

Dear Mr. Roberts:

Among the numerous programs conducted by the Radiologic Health Branch, the Mammography Protection Program is of extreme importance to the health of women. Mammograms that are of nondiagnostic quality can result in extreme health problems to an unsuspecting public. Recently you participated in a divisionwide effort to notify over 4,000 women located in Southern California who had nondiagnostic mammograms conducted by National Breast Centers Inc.

The Department received over 4,000 patient records in 24 boxes. Your outstanding assistance resulted in the prompt notification of several thousand patients and the return of their original medical records. The numerous hours of overtime you and other staff put into this project is greatly appreciated. The new Director, Kim Belshe' specifically identified this action as an outstanding accomplishment when a project report was presented to her.

Your superb performance has resulted in many women being able to obtain their old x-rays so that the patient could determine their future course of medical action. I want to personally commend you on your contributions to the success in this patient notification action.

A copy of this letter will be placed in your personnel record in order to document your outstanding performance.

Sincerely,

Larry Barrett, D.V.M., M.S.
Acting Chief
Division of Food, Drug, and
Radiation Safety

Without your help we

December 18, 2006

Paul Dale Roberts
Political Reform Division
Secretary of State
1500 11th Street
Sacramento, CA 95814

Dear Paul:

Thank you most sincerely for participating in the Election Observation Program in the 2006 election cycle. Whether you participated in the June Primary Election, the November General Election, or both, your efforts helped county election officers and the Secretary of State's Elections Division make meaningful improvements to the elections process in the State of California.

Following the June Primary, your observations were verbally shared with the counties you had visited. They used this information to make important changes in their poll worker training and voter education programs and in the elections process in their respective counties. Some of your observations and recommendations led to improvements at both the state and county levels, and enhancements by vendors to voting equipment.

The most notable change related to the VVPAT printers. Those of you observing in November reported far fewer paper jams and printer failures than the observers had reported in June. Another noticeable change related to use and availability of signs. There were fewer issues of missing or non-visible signs at polling places in many counties that had experienced issues in June. Voters also benefited. As a result of increased voter education efforts in the counties and by our Office, fewer voters using electronic equipment were asking for VVPAT "receipts."

As reports of electronic voting fiascos came in from other states in November, voters in California expressed concern about reliability and security of the equipment and the protections in place to preserve the integrity of the election. Knowing that the Secretary of State would deploy observers to the polls was reassuring to both voters and candidates. The results of your observations will be shared with the counties, again improving election procedures and ensuring the sanctity of the vote, essential to a democracy. Most importantly, overall confidence in California's electoral process remains high.

And for those of you who participated in both June and November, we are especially grateful. Thank you all for participating in this important program.

RE: Parallel Monitoring Program

Thank you for your participation in the Parallel Monitoring Program. The Program was a great success and this was due in large part to your help.

I also want to thank you for the respect you showed the county elections officials during the Program. Everyone reported that you were very courteous and polite. Your behavior reflected well on the Secretary of State's office.

Again, thank you for helping making the Parallel Monitoring Program a success. You helped us take an important step towards assuring voters that their ballots were accurately counted.

RE: Parallel Monitoring Program

I want to thank you for your participation in the Parallel Monitoring Program. The program was a great success, and this was due in large part to your help. This was the very first time a program like this was implemented anywhere in the country, and, as with all programs when they first get started, there is a higher probability for error than after the bugs are worked out and the program becomes routine. Thanks to you, the first time out of the box was perfect!

I also want to thank you for the respect you showed the county elections officials during the program. Everyone reported that you were very courteous and polite. Your behavior reflected very well on the Secretary of State's office.

Again, thank you for helping making the Parallel Monitoring Program a success. You helped us take an important step towards assuring voters that their ballots were accurately counted.
